Subject: Time sensitive - please provide more info on R10 briefing
Importance: High

Hi –

We got the news item below, and need more information, if possible in the next hour.

I'm pulling together Wayne Cascio's talking points for today's Executive Council meeting, and need to let him give the EC a heads up about this one today, since the next EC meeting is next Monday, the day of the first briefing.

I know nothing about this issue, but I googled.

Is the issue that Oregon's 2012? 303(d) list did not identify any waters as impaired for ocean acidification, and EPA approved that?

And now EPA is being sued?

By whom?

What is Cheryl's area of expertise to respond to questions?

Thank you!
